

IMPORTANT NOTE: DO NOT "REPLY ALL" TO THIS MESSAGE

Hello,

Congratulations on passing the CS 124 proficiency exam. Credit for this course should appear in your DARS by midsemester.

The prerequisite overrides have been entered for you to enroll in CS 128 and CS 173. Please manually enter the CRNs for the classes when you add them to your schedule. Kindly note that being given a prerequisite override does not guarantee enrollment in the course. Closed class overrides will ***NOT*** be given.

IMPORTANT NOTE: DO NOT "REPLY ALL" TO THIS MESSAGE

Congratulations on passing the CS 128 proficiency exam. Credit for this course should appear in your DARS by midsemester.

Please follow the instructions that best suit your situation:

IMPORTANT NOTE: DO NOT "REPLY ALL" TO THIS MESSAGE

Congratulations on passing the CS 225 proficiency exam. Credit for this course should appear in your DARS by midsemester.

If you wish to enroll in a CS course for which CS 225 is a prerequisite, please reply with a list of **NO MORE** than 3 courses in which you would like to enroll. Please make sure that you meet **all** the prerequisites for CS 225 and the course(s) you request. This means that if you are waiting for the results of the CS 173 proficiency, you will not receive an override until the results of the exam indicate you passed. Kindly note that being given a prerequisite override does not guarantee enrollment in the course. Closed class overrides will ***NOT*** be given.
